

AUTUMN WINTER

2023

**JJDK**

## FOR A BETTER AND GREENER WORLD

Every year, about seven million tons of waste are discharged into the world's oceans. Plastic in the ocean is a serious threat to marine wildlife, plant life and entire ecosystems.

Our green planet is gradually deteriorating due to environmental pollution, CO2 emissions and plastic waste. Despite the effect on animals and human beings, this phenomenon is unfortunately increasing.

Many organizations, associations and dedicated volunteers get involved in this cause globally - so does JJDK. With this new collection, JJDK has selected several of our series in which we use a lining made from recycled plastic bottles.

So, when you purchase one of these specially selected JJDK products, you help save the world and support global sustainability.

THANK YOU

**JJDK**  
DESIGN OF DENMARK

## JJDK AW 2023

**JJDK Autumn/Winter collection 2023 offers the best range of seasonal colors and materials ready to be presented to the world. Especially the new RUSTY & BURNT OCRE tones are paramount in this collection, as well as SHADE - new Nordic warm grey-beige color combination.**

**JJDK has, as always, its lasting icon that symbolizes the brand. JJDK expertise, creativity, and craftsmanship are expressed through heritage features and can be found everywhere on the products, including rings, zippers, logos, beautiful and sophisticated quilting on the bags that always evoke the JJDK styles.**

**I hope your customers and yourself will fully enjoy this upcoming collection.**

Sincerely,  
JJDK, Jakob Bredahl-Kjær

A handwritten signature in black ink, appearing to read "Jakob Bredahl-Kjær".
